MEDIA RELEASE

RIN READY TO SHOWCASE SECTOR AT QME

It's the signature mining event in regional Australia and Resource Industry Network (RIN) is ready to showcase the region's world-class engineering and heavy industrial capabilities to the thousands of delegates set to walk through the doors of the Queensland Mining and Engineering Exhibition (QME) next week.

RIN is part of the Mackay Region Innovation Showcase stand (A616) and alongside Mackay Regional Council and Greater Whitsunday Alliance, the team aims to educate QME visitors that this region is world class when it comes to the METS sector and is successfully competing globally when opportunities arise in the market.

With more than 1100 businesses directly servicing the Bowen and Galilee basins, the Greater Mackay region has evolved to be one of the leading centres for specialised engineering and heavy industrial capabilities in the world.

RIN member companies Mackay Conveyor Equipment, East West Lighting and Vayeron will also be at the stand as representatives of our most innovative businesses. These companies are all attracting attention across the globe when it comes to creating new technologies, producing cost-reducing products and equipment, and improving productivity.

These three companies will also be part of the QME Seminar Series where they will participate in the 'Innovation and Excellence at the Coal Face' presentation on Wednesday, July 25th a 2.30pm. As part of the session, these companies will showcase their innovative solutions and demonstrate why the Mackay METS sector is continuing to grow from strength to strength.

RIN chair and Mastermyne managing director Tony Caruso will join an esteemed panel of industry leaders for an in-depth discussion about the pathway forward for the mining and METS sector on Tuesday, July 24th at 10.15am. Exploring a range of key topics critical to the sector's future, this panel session will leave you with a view of the 'Mining's Next Horizon'.

The Queensland Mining and Engineering Exhibition will be held from July 24-26 at the Mackay Showgrounds. It is a free event and those interested in attending can go to the website to register.
